The FVG has to change and for that to happen the new government must work to make the borders of the Federation freer for the passing of goods and people. The EFG should be more flexible on the issues of health care, energy and security, and can join with what we are doing in our governance, through the EFG Association to improve our relationship and turn the EFG into a totally useful tool. The FVG is well on its way to becoming a first world federation, but the road is far from over. The association between the FVG and the EFG is very important for all of us and this must be strengthened by the fact that citizens are directly represented through the new FVG, so that we can also become better Europeans. We need to let go of the antagonism with the EFG, and if we do, the two organisations will have a mutual benefit and the EFG can become our best friend in the world. Plaque morphology and function in patients with aortic valvular sclerosis. One hundred consecutive patients undergoing echocardiographic examination were studied to determine the relationship between aortic valvular sclerosis (VS), valve function and coronary artery morphology. Plaque morphology was studied in 99 patients by M-mode echocardiographic assessment of aortic valvular cusps. Color Doppler imaging was used to estimate aortic valvular flow velocity and to determine aortic valve pressure gradient in 60 patients. On echocardiography, 19 patients had
