

## Particles Energy Burst Logo Reveal

[CLICK HERE](#)

On the image there are menu items which should call a javascript function, but they are not working. When I check the file in a browser directly, the function is executed as the toolbar was loaded directly via ajax, so I know the script is executed and works. The only problem is, I just don't know how to make it work with ajax. The buttons work, also a normal link, the only one that is not working is the menu item with the ajax in it. I just don't know how to apply the function in the .png file via javascript. There is no javascript code given on the functions.png file. I've tried multiple combinations of the html calls, but either the webbrowser immediately changes the .png to the .jpg, or the javascript code is not executing. You can download the code below. styles.css #order\_panel.col.order\_panel.content a.order\_panel.content.link { background-color: #cccccc; padding: 10px 15px; border-top: 1px solid #cccccc; border-bottom: 1px solid #cccccc; color: #666666; font-weight: 700; font-size: 14px; font-family: 'PT Sans', sans-serif; } #order\_panel.col.order\_panel.content a.order\_panel.content.link:hover { background-color: #eee; border-top: 1px solid #cccccc; border-bottom: 1px solid #cccccc; text-decoration: none; color: #666666; } var order\_panel\_id = ''; \$(document).ready(function() { \$('#order\_panel').click(function() { \$('#order\_panel').toggleClass('active'); }); var container = \$('#order\_panel'); var i = 0; container.find('[data-z]').each(function() {
